## Plant Selection Worksheet

Compare plant choices before you buy or plant.

### 1 Plant Wish List

| Plant | Bloom Color | Bloom Time | Mature Size | Sun Need | Notes |
|-------|-------------|------------|-------------|----------|-------|
|       |             |            |             |          |       |
|       |             |            |             |          |       |
|       |             |            |             |          |       |
|       |             |            |             |          |       |
|       |             |            |             |          |       |
|       |             |            |             |          |       |
|       |             |            |             |          |       |

### 2 Layering the Bed

Back row - tallest plants or shrubs:

Middle row - medium plants:

Front row - low plants or edging:

### 3 Spacing Check

- I checked mature width on every plant tag.
- I left room between plants and the house, walkway, or fence.
- I allowed space for airflow and future growth.
- I calculated how many plants will fit without crowding.

### 4 Final Plant Choices

| Plant | Quantity | Spacing | Estimated Cost | Notes |
|-------|----------|---------|----------------|-------|
|       |          |         |                |       |
|       |          |         |                |       |
