Plant Temptation Details

Plant Name

Where did you see it?

Price

Where will it go?

Mature Height

Mature Width

Spot Check Before You Buy

I know how many hours of sun this spot gets.

The soil and drainage are good enough.

I measured the space before falling in love.

I checked if deer treat it like a buffet.

The mature size will fit without crowding.

I know when and how it needs pruning.

The water needs match that part of the yard.

It solves a real problem or adds a real purpose.

The Honest Little Reality Check

What job will this plant do?

Example: fill a bare spot, add blooms, attract pollinators, hide something ugly

What could go wrong if I plant it there?

Example: too much shade, too much sun, wet feet, deer, not enough room

Do I already have something similar?

Be honest. This is a safe space for plant people.

Final Decision

Choose one:

Buy it

Think on it

Walk away and be proud

Notes:

Plant Farm Tip: A plant is only a good deal if you have the right place for it.
